

NEW RELEASE

A new map

A new optimized map powered by the GOOGLE platform is now available for all modules. This new map is faster and provides a high-quality visual and assure the fluidity of the trips.

REMINDER

Have you justified your business mileage for your vehicle's expenses in order to comply with government regulations?

If NO, here's how to do it:

It is possible to include the explanation for your saved trip directly under comments in your account. For recurring destinations or trips, we recommend adding them as favourites. The comments will be automatically registered. To learn more about the creation, modification or import of favourites, please refer to the «TIPS AND TRICKS» section and click on the link to access the document.

Will I benefit to synchronize my vehicle's odometer in my ODOTRACK account?

Yes! Here are the advantages:

- In the event of a problem with your device, it is possible to adjust the number of the actual mileages travelled displayed on your vehicle's odometer during the synchronization;
- Effective and time management solutions of your business mileage;
- Accurate audit defense tool in the event of a tax audit.

Note that the system will ask you to synchronize when you add a new vehicle and at the end of each year;

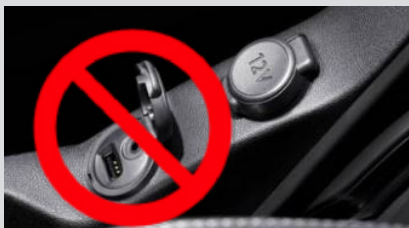

To update your vehicle's (s) odometer, simply log on to your ODOTRACK account. Click on the "Vehicles module" and on the "Odometer" tab. Please be advised that during the first synchronization, one option is available. Afterward, other options will be recommended depending on your situation.

TECHNICAL SUPPORT ADVICE

Several people ask us if they can use their vehicle's USB port to connect their ODOTRACK device.

Answer: **Do not use** your vehicle's USB port, because the amperage and voltage are not sufficient to supply power to your ODOTRACK device. It is important to use, at all times, the cables and accessories supplied by ODOTRACK to guarantee the proper functioning of your device.
