

Congratulations on acquiring an ODOTRACK device. Please read the instructions carefully before using the device. For B and C installations, it is recommended to have the installation done by a professional installer. To find an installer near you, please call us. For more information, please visit us at [www.odotrack.ca/support](http://www.odotrack.ca/support).

# 1 LOCATION OF YOUR DEVICE *(Near the cigarette lighter socket)*

# 2 A QUICK INSTALLATION

Connect the ODO10 with the accessories supplied (USB cable (1) and charger (2)) into the cigarette lighter socket.

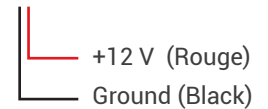

# B INSTALLATION WITH OBD-II CABLE\*

Connect the ODO10 using USB cable and OBD-II adapter (3), then insert into the OBD-II connector of your vehicle. The location may vary with different manufacturers, models and production years. Usually it is located under the steering column. If necessary, remove the OBD-II connector cover (OBD-II adapter is sold separately).

# C INSTALLATION WITH FLEET CABLE *(permanent)*

Identify an electricity source (ideally the battery) and connect the mini-B USB cable (4) in the ODO10.

# 3 INITIALIZATION

Press the start button to turn the power on. Battery indicators, antenna signal and network signal (the latter will show 4 bars) must be activated. The GPS satellites' detection can take a few minutes.

# 4 VALIDATION

- 1 Login to your account ([odotrack.ca](http://odotrack.ca))
- 2 Select the ODOTRACK module
- 3 Confirm the location of your vehicle

>>> It takes approximately 5 minutes after installation for a new device to begin transmitting the vehicle's position.
